GET THE FIRST LOOK AT THE FUTURE OF CROSSBOWS:
Dualfire™ Technology

DualFire™ Technology

WE'RE NOT JUST
MAKING CROSSBOWS.
WE'RE MAKING HISTORY.

At Excalibur, we're hunters first, always have been. So when we saw an opportunity to improve the crossbow in a way that's never been done, we didn't miss a beat. Introducing new DualFire™ Technology. Engineered to accurately fire two shots from a single crossbow, with tight groups at any distance. Equipped with double triggers so you can fire in clean, rapid succession. Reinforced with Ceasefire™ Technology for added safety. DualFire™ Technology. We're the first to invent it—because we're hunters first.

Two Trigger Platform

- DualFire equips you with double, independent 4 lb. frictionless triggers for double the confidence and double the opportunity.
- The front trigger fires the top rail, the back trigger fires the bottom rail, and a wide finger guard enables easy gloved shooting.
- Precision components that last a lifetime.

Over/Under Rail System

- Two crossbows in one: a perfectly balanced, compact over/under setup incorporating a quad limb and dual string setup.
- Both arrows shoot through the riser for increased consistency and accuracy.
- Skeletonized for weight reduction, yet carries Excalibur's signature durability.

DUALFIRE™ TECHNOLOGY

CEASEFIRE™
ANTI DRY-FIRE SYSTEM

Ceasefire Technology

- ✓ The ultimate in crossbow safety technology, ensuring your crossbow will not fire unless an arrow is loaded.
- ✓ Works in conjunction with Excalibur's new Rhino Nock, providing a positive, audible click when loaded.
- ✓ This combination of reinforced safety and extra anti dry-fire insurance allows you to focus on what matters.
