PRECISION SHOOTING EQUIPMENT

CARBON LEVITATE

THE MOST ADVANCED COMPOUND BOW EVER.

Weighing in at a mere 3.6 pounds, and hand laid by skilled craftsmen in the USA, every Carbon Levitate™ is precision-built from top to bottom and engineered to maximize every benefit of high-performance carbon. Loaded from cam to cam with the most advanced technologies, and firing arrows downrange at an ultra-quiet 348 feet per second, every single detail has been perfected and super-tuned to create a bow that rises above them all.

MORE POWER

ALL-NEW E2 CAM with a wider stance, smoother feel, more efficiency at all draw lengths & a new, advanced bearing system.

LESS VIBRATION

ALL-NEW DEAD FREQUENCY CARBON a lighter, stiffer, more dead in hand & dead on target shot experience.

MORE OPTIONS

ALL-NEW REAR STABILIZER MOUNT for more accessory options.
