# RALLY GUIDE

(as at 21 September 2020)

## 1 Int. ADMV-Lausitz-Rallye – Three. Two.. One... Gravel

Noisy engines, hottires, and a challenge to every pilot on the best-prepared gravel roads in Germany ... that's the Lausitz-Rallye - the ultimate gravel rally in Germany and Central Europe with unique almost 100% gravel roads where every Rally Fan - and those who want to be – gets grass, dust and mud may fly around his ears.

Top drivers from Germany and 28 other European countries have a hard nut to crack on our perfectly prepared stages. We have already seen involuntary water crossings, jumps where the distance measurers almost capitulated, drifts on the edge of physics and smoking timekeepers. Each team is fighting bitterly for every tenth of a second and challenges material and vehicle.

Shortly before the end of a rally season marked by many event cancellations, the 23rd ADMV-Lausitz-Rallye takes place on the second weekend of November and provides top-class motorsport in the region of Boxberg/O.L. After five times successful rounds of the European Rally Trophy in this year the Lausitz-Rallye is the big final of the European Rally Trophy. But also the ADMV-Rallye-Championship, the Rally Championship of Saxony and the HD-Gravel-Cup have their home in the Lausitz for many years. A new rating will be the DMSB Gravel-Rally-Cup which takes place the first time.

The ARENA, which is unique in Germany, is a spectacular highlight for drivers and spectators equally for eleven years. On natural grandstands the spectators line the artificially created crest downhill, the crest followed by a drift curve and a water crossing. You have to experience the gravel stones crackling in the fenders of the rally cars and the top pilots heading towards the curves, braking hard as late as possible and heaving their racing cars around the bend in a breathtaking drift angle. In the next moment they speed away in the forest with a dull babble.

The center of the action with service park, Parc Fermé, press office and infopoint are the "Sternencamp Bärwalder See, on the Boxberg/O.L. side of the lake and the rally headquarters with rally secretariat in the tourist information centre (TIZ) "Bärwalder See" on the shores of the Bärwalder See. The trailer parking space will be on the free place in front of the sport field Thälmannstraße. Administrative checks and scrutineering of the competition cars will be carried out in the fire station of the voluntary fire brigade in Boxberg/O.L. Because of the corona protection measures unfortunately, we cannot hold a rally party in the marquee this year. That is why the Lausitz rally ends with a podium ceremony on the ramp.

At this stage we would like to thank our local authority Boxberg/O.L. in advance, especially our mayor Mr. Achim Junker and the local councils for their generous assistance in the preparation of our event.

Now we want to wish an exciting and eventful weekend at our 22<sup>nd</sup> ADMV Lausitz-Rallye to all participants, spectators, sponsors and supporters.

Wolfgang Rasper  
Chairman of the organising committee

## 2 History and facts of the Lausitz-Rallye

### 2.1 History of the Lausitz-Rallye

The 1<sup>st</sup> Lausitz-Rallye on 11<sup>th</sup> of November 2000 was the beginning of a new age of motor sport around Boxberg/O.L. It was a 100% gravel rally.

At the beginning the Lausitz-Rallye was a Rally 200 with 35 km special stages but it took a rapid development. Already the 4<sup>th</sup> Lausitz-Rallye was a "2 in 1 Even" – with a National A and a Rally 200 category.

As sign of appreciation for our continuous organisational work and because of the excellent conditions of Germany's best gravel stages, we received the approval to host the final round of the German Rally Championship in 2004.

With a „Small Lausitz Rallye“, a Rallye 200, the Rallye-Renn- & Wassersport Club Lausitz e.V. in the ADMV has hosted the ultimate gravel experience for amateur drivers in the summers of 2013 and 2014.

The ADMV-Lausitz-Rallye has also earned an excellent international reputation. By now, besides the 1202 German competitors, 736 drivers and co-drivers from 29 nations have participated. A run to the European Rally Trophy is announced for the sixth time, this year as the final of this series. A special highlight at the 20<sup>th</sup> anniversary of the Lausitz-Rallye, has been the final round of the European Historic Sporting Rally Championship. So the ADMV-Lausitz-Rallye is the second most important rally in Germany.

## 2.5 The Region

(Source: Internet)

### 2.5.1 Municipality Boxberg/O.L.

Boxberg/O.L. was first documented in 1366. Boxberg/O.L. is divided into 18 districts. Approximately 5300 residents live on 217 km<sup>2</sup>. They thus are forming the largest area community of the Free State of Saxony. In confined spaces the municipality Boxberg/O.L. offers utmost diversity – scenic, architectural, technical and human.

Despite decades of lignite mining the town still lies in one of the most densely wooded areas in Germany. The unique heathland with the floodplains of the rivers Spree and Schwarzer Schöps, as well as industrial sites, such as lignite-fired power plant and strip mining's exude a special charm that is difficult not to succumb. In deep pine forests you can observe wild wolves who settled here again in recent years. Idyllic meadows, streams, rivers and lakes invite every visitor to relax.

The largest lake in Saxony – the “Bärwalder See” is in the northwest of the 217 km<sup>2</sup> area of the municipal area I. It has an area of 13 km<sup>2</sup> and is increasingly developing as a sailing and surfing paradise. Athletes, visitors and guests will appreciate the good surrounding conditions and infrastructure in and around the “Landscape Park Bärwalder See”. This undoubtedly includes the 21.1 km long paved path around the lake with a connection to the neighbouring cities Boxberg/O.L., Klitten and Uhyst and the port on Klitten shore or

boat docks in Boxberg/O.L. and in Uhyst.

Beautiful sandy beaches arisen for the swimmers are at all locations - Boxberg/O.L., Uhyst and Klitten. At the beach of Boxberg/O.L. next to the textile beach there is an area for nudists.

But Boxberg/O.L. has more highlights – amongst others the largest human ear modelled from sand masses. You can pass it on a loop road of approximately 1,000 m and you will have a beautiful view over the Bärwalder See. In the pinna is located an amphitheatre with 270 seats. In the summer months numerous cultural events take place there. The first 10 of 26 “Swimming houses” are the newest attraction and they invite to spend the holidays on water.

Further information about the Bärwalder See you find here [www.baerwalder-see.eu](http://www.baerwalder-see.eu)

On a guided tour through the lignite power station Boxberg/O.L. operated by the LEAG (Lausitz Energie Kraftwerke AG), you can gaze at the modern technology and its enormous dimensions. The working in base load operation power plant originally went with 3,520 MW at the start. Already in 1968 here was laid the foundation for well into the 90's in Germany's largest lignite power plant. In the period from 1992 to 1995 the two 500-megawatt blocks (plant III) were retrofitted with the latest environmental technology and upgraded for an indefinite continued operation. The 12 x 210 megawatt plants (plant I and II) were gradually shut down and built back. As part of a replacement a 900-megawatt single-unit plant was built. This is feeding safe and highly efficient lignite electricity into the grid since 2000. Due to rising energy demand, it became necessary to build a 640 megawatt block once again.

Architecturally enthusiastic visitors should in any case visit the grist wooden chapel (Schrotholzkapelle) built in 1780 in Sprey, the castles in Uhyst and Bärwalde, and the estates of Kringelsdorf, Möнау and Reichwalde. In the district Uhyst, families may marvel at the Reptile House and the Safari Wildlife Park.

In the district Nochten Lusatian Findling Park, that is unique in Europe, invites nature lovers to linger. The bike paths Spreeradweg, Hermannsdorfer Radweg and Wolf Radwanderweg offer a light reaching of destinations.

## 2.5.3 Places of interest around Boxberg/O.L.

### Lausitzer Findlingspark Nochten

Around 3,000 boulders - 600-1000 million years old - have been arranged on an area of about 20 ha with various heathers, cacti, many rare plants and precious woods to a fantastic garden. The new information and visitor centre offers the hospitality and sanitary area also several rooms for exhibitions and conferences.

### Safari- Wildrevier Uhyst

# RALLY GUIDE

(as at 21 September 2020)

The Wild Safari Park is located in an interesting post-mine landscape. Here you can feed and caress real lammas, go on a jeep tour or face deer very close. In addition to classic jeep safaris and night safaris, observations from a high seat or track search are offered in winter. Project and hiking days can be booked by schools; anniversaries can be celebrated there on request, which means beautiful hours in nature with the entire birthday bevy. Gift certificates with a safari plus feeding are a nice present for families or friends.

## Lausitzer Bergbaumuseum Knappenrode

Located just outside the town of Hoyerswerda - between Knappenrode and Silbersee - is the former briquetting plant Knappenrode. From 1918-1993 briquettes were pressed here. Today, visitors can experience the mining of yesterday, today and tomorrow of the Lausitz Mining Museum on an approximately 250,000 m<sup>2</sup> area. In one of the many exhibition complexes, the largest shaft frame of the Lausitz that symbolises the underground mining can be seen.

## Waldeisenbahn Muskau

The beginnings of Muskau Forest Railway dates back to 1895. At this time the rich forests and natural resources of Muskau arch were opened and at the end of the 19th century lignite mines, brickyards, sawmills, paper mills and glass factories were created in the area between Muskau and Weißwasser that have been connected with a Pferdebahn with 600 mm gauge built by the Muskau

lordship, Count Hermann von Arnim. 1991, the District Office Weißwasser decided to rebuild the forest railway with the help of grants and job creation schemes as a tourist attraction again. 1992 the line already went back into operation to the park community Kromlau, initially with diesel locomotives from disused industrial railways and for passenger converted open wagons. In the own workshop also covered cars emerged.

## Fürst Pückler Park Bad Muskau and Kromlauer Park

The Muskauer Park offers extraordinary natural experiences: sprawling lawns, majestic trees, winding paths, picturesque lakes and rivers, unique bridges and buildings. You can explore this paradise on foot,

by horse-drawn carriage, bike or boat. What appears as naturally grown, is created by a firm hand landscape - a garden artwork of Prince Hermann von Pückler-Muskau. In summer 2004 the landscape of art of the Prince has been included in the list of world cultural heritage by UNESCO.

In the neighboring village of Bad Muskau, another park was created in 1844 by landowner von Röttschke and extended from 1889 by Graf von und zu Egloffstein. This had also provided the park with a large collection of azaleas and rhododendron cultivars. Today the Kromlau Park with its unique arch bridge over the Rakotzsee is the largest free range rhododendron park in Germany.

## Bautzen – the town of towers

In Bautzen there is plenty to see and do. Bautzen is best known for its old town with its many towers. Bautzen is the center of Oberlausitz. The uniqueness of the town comes from the diversity of her charms - a preserved local beauty spot and advanced in the renovation historical Old Town, interesting German and Sorbian cultural life, a varied tourist region. The town on the river Spree is developing to a modern and attractive service, economic and residential location.

## Die Europastadt Görlitz

The historic city of Görlitz is the tourist magnet of the city. In addition to hundreds of listed buildings, are all sorts of legends have grown up around the old town Görlitz. 3,500 listed buildings from the late Gothic, Renaissance, Baroque, Wilhelminian and Art Nouveau shape the Görlitzer cityscape.

## 2.6 Commercial relevance

The ADMV-Lausitz-Rally is the absolute motorsport highlight in the Lausitz and a fixed part of the sporting and event schedule in Germany.

Approximately 100 rally teams are expected, including the top drivers from all over Europe. Together with their assistants, there will be approx. 1500 persons in Boxberg/O.L., Weißwasser and within a radius of 60km. Many of them arrive some days before the start of the competition and stay until Sunday. In addition there will be approximately 600 volunteer assistants from all parts of the Federal Republic, who help things to run smoothly, and up to 100 media representatives of press, radio and TV, who report about the rally in national and international media channels. Thousands of spectators who follow the event live will constitute a framework for the rally.

In the time of the rally nearly all hotels, guest houses and other accommodations are fully booked. Also restaurants, the retail, garages and fuel stations – especially in Weißwasser –benefit from the rally. The Lausitz-Rallye is also a perfect base for image campaigns for tourism and for investors.

A lot of participants and spectators come back to the Lausitz after the rally as tourists to acquaint the “Lausitzer Seenland” and more sights.

# RALLY GUIDE

(as at 21 September 2020)

## 5.3 Access into the service park

Only competition cars and service vehicles with affixed service plates („Service“) of the organiser are allowed to enter the service area. The service cards and the wristband must be picked up personally by every mechanic at the service point.

The maximum speed in the service park is 10 km/h (walking speed).

## 5.4 Service space

The service spaces in the service park are limited. Trailer, caravans and vehicles that are not in use have to be parked on the designated Trailer parking. Only competition cars with affixed starting numbers and service vehicles with affixed service plates („Service“) on the wind screen are allowed to enter the service area.

Together with the entry form the form „Registration Service Area“ has to be sent to the organiser. Without this form the teams will be not entitled for a bigger area. The regular area provided by the organiser will be 60 m<sup>2</sup>. Additional areas can be rented, the additional fee is EUR 3,-/m<sup>2</sup>. This fee has to be paid with the entry fee.

During administrative checks a deposit of 200,00 € has to be paid cash to ensure a proper return of the individual service area. After proper return of the individual service area the deposit will be paid back to the crew by the chief of the service park. The amount of the deposit will not replace any payment for damages caused by a member of the crew.

## 5.5 Environment protection, cleanness, refuelling

### 5.5.1 Behaviour within the service park

Crews are obliged to put a sufficiently large plastic ground sheet (minimum size 5 x 2 m) under the competition car as long as service works are carried out.

Service works shall not cause sustainable and avoidable damages.

Refuelling is allowed only at the foreseen refuelling zone and in accordance with art. 58 FIA-RRSR. Refuelling is strictly forbidden in the service area.

At any time the service team must have a sufficient volume of oil absorbent and canisters for the disposal of oil, brake fluids, etc.

Waste, packing materials, parts, tyres, empty oil cans, batteries etc. must be taken away and disposed by the team. Used oil, fluids and lubricants must be collected in cans and disposed after the event by the team in a safe manner.

The dirt from the tarpaulins or the environmental mats must be taken away in the team's own containers.

The team will receive two trash bags for garbage papers and biologic waste which may disposed at a specific location. More over the team is required to have additional trash bags (minimum 100 l) as a spare. This regulation may be checked by judges of fact.

Unreasonable or mischievous behaviour of teams, acting against the aim of environmental protection, harms principally the image of motorsport and will be punished, even if there are no detailed regulations mentioned.

After the rally the individual service area has to be handed over in tide condition. The crews are responsible for the removal of their waste and sewage. During administrative checks a deposit of € 200 has to be paid to ensure a proper return of the service area. After proper return of the service area the

(as at 21 September 2020)

deposit will be reimbursed to the team. The amount of the deposit will not compensate any payment for damages caused by a member of the crew.

The use of minibikes in the service park is not covered by the organisers insurance and will be on the own risk of its driver.

## 5.5.2 Infringement of the service park regulations

Any infringement of this regulations, especially the contamination of the service area will cause the forfeiture of the deposit and will be penalised with a fine of € 500 by the clerk of the course. Major infringements will be reported to the stewards. and the costs of the disposal company are billed to the team.

## 5.5.3 Security patrols

There will be a restricted number of security patrols in the service park. The organizer takes no liability of the belongings of the teams.

## 9 Road traffic regulations

The drivers have to respect the road traffic regulations of the relevant country. Infringements will be reported to the clerk of the course. In case of infringements against the traffic regulations the policeman or the official who has detected the infringement has to inform the person concerned in the same method as normal road user. If the police or the official decided not to stop the driver, he may inform the organiser to hand out the punishment according the supplementary regulations. The information has to receive the organiser on the official way in written form. The description has to be sufficient to identify the involved driver, the location and the time without doubt.

## 10 Road traffic regulations in Germany

Toll on highways and federal highways

From October 1<sup>st</sup> 2015 all trucks with permitted total weight over 7.5 t have to pay the toll. Detailed information in several languages are available on the internet address [www.toll-collect.de](http://www.toll-collect.de)

Ban on driving on Sundays and public holidays for trucks

The ban on driving on Sundays and public holidays applies during the period from 0:00h to 22:00h for the entire route network in the Federal Republic of Germany,

for all trucks over 7,5t

- trailer behind trucks, independent from permitted total weight
- articulated road trains with permitted total weight of the combination over 7.5 t

Certificate of exemption

The organiser arranges certificates of exemption for trucks for the rally weekend (07.11. and 08.11.2020) together with the authorities.

## 11 Reconnaissance

### 11.1 Registration procedure for recce-cars

Before start of reconnaissance the registration of the recce-car is absolutely obligatory. Registration will take place at the Rally-HQ according to the programme Art. 3. The recce-car acc. Art. 35 of FIA-RRSR has to be registered in the Rally-HQ with the official registration plate at the Distribution of the ROAD-BOOK/RECCE documents.

Rallycars which will be used at the competition may not be used for the Recce.

The organiser will provide recce-numbers, which have to be placed at the top right of the front windscreen and at the rear side windows. It is not allowed to displace this numbers during the whole time of recce. Drivers are obliged to inform the secretary of the event immediately in case of change of the recce-car.

Every team will receive a recce-card and the RECCE-Book during issuing of road book. The recce card has to be returned to the marshal according Art. 3 at the TC Start.

During each passage through a special stage only driver and co-driver of the registered team are permitted in the car (FIA-RRSR Art. 35.4.6)

### 11.2 National regulations, Maximum speed on special stages

#### 11.2.1 Speed limit (Art. 34.2 FIA-RRSR)

All recce of the SS has to be done at reasonable speed and in accordance with German traffic rules. During recce the SS are not closed for the public traffic. The drivers have to be aware that the public may use the roads as well. The maximum speed limit in built-up areas, single houses, single farm houses and in areas marked in the road book is 30 km/h.

#### 11.2.2 Direction

Each crew may drive the special stages only in the direction of the rally, unless permitted to drive in the opposite direction for very short sections if published in a communication by the Clerk of the Course. The crews must always enter and leave the special stages through the start and stop controls.

#### 11.2.3 Restriction of reconnaissance

Any driver, or his co-driver, who has entered or intends to enter the rally and who wishes to drive ahead the rally on any road which is or might be used as a special stage in that rally, may only do so after he has obtained the organiser's written permission after publishing of the Supplementary Regulations. This shall not apply when the person is known to live along the specific road. Failure to respect this rule shall result in the driver being reported to the Stewards.

Recce is permitted **max. two passages** each special stage (special stages run twice are considered to be one special stage).

## 11.2.4 Control of reconnaissance

Checks may be carried out by police, authorities, owners or officials of the event. Infringements will be reported to the clerk of the course.

Checks may be carried out by police, authorities, owners or officials of the event. Speeding will be reported to the Clerk of the Course and the Stewards and will be sanctioned according FIA-RRSR Art. 34.2.

## 11.2.5 Infringements against the rules of reconnaissance

Any infringement against afore mentioned rules will be reported to the clerk of the course and penalized according to the FIA-RRSR.

## 11.3 Recce-Itinerary

The event takes place on private area. For safety reasons the itinerary will not be published.

## 12 Administrative checks, scrutineering - marking

### 12.1 Administrative checks, location and time

See Art. 4.2 – Schedule during event

If teams are interested to participate on the optional checks please mark this on the entry form, page 5 (ERT) respectively page 6 (National A). Otherwise the participation on the optional checks can't be guaranteed.

### 12.2 Individual times for administrative checks and scrutineering

The individual times for the administrative checks and scrutineering will be published with the entry confirmation.

### 12.3 Administrative checks

#### 12.3.1 Documents to be presented

- Competitor's- and/ or sponsor's licence
- Driver and co-driver's licence - Identity cards / passports of driver and co-driver
- Driving licence (driver/ co-driver)
- ASN authorisation for foreign competitors (where required)
- Completion of details on the entry form
- Insurance certificate for the rally car
- Car registration documents, certificate of liability insurance
- Declaration of consent by the owner of the competition car (if driver is not owner of the car)

## 12.4 Scrutineering

### 12.4.1 Documents to be presented

- Original Homologation documents
- Certificate of the safety cage
- Data sheets
- Cars registration documents
- Driver safety equipment card (filled in completely)
- DMSB-Identity Form (KFP) for vehicles in Group F with road admission in Germany
- DMSB-Identity Form for vehicles in Group F with road admission outside Germany
- SOS/OK-sign DIN A 3 (This can be bought from the organiser during the scrutineering)

For each car of the FIA priority driver, an additional gearbox and an additional differential gearbox may be used in each rally. These spare parts and the parts built into the car are marked / sealed during scrutineering. In these cars, the underbody protection to seal the gearbox and differential gear must be removed and remain with the vehicle for weighing.

The correct installation of the tracking systems is checked during scrutineering

## 12.5 During the rally

The safety equipment, incl. clothing, and the car itself can be inspected at every time after the start to leg 1 of the rally. The competitor is responsible for the technical accordance of the car during the whole event. The competitor is responsible that markings be conserved up to the end of the rally. The non-existence of a marking results in a report to the stewards. Further the competitor is responsible for the correct installation of the effected part by the inspection. Every detected fake, especially of a marking, results in a report to the stewards.

## 12.6 Final scrutineering

Place and time: see Art. 4.2 (Rally Guide)

Teams that receive a request for the final srutineering immediately have to follow the assigned officers and the support vehicle for the final scrutineering, even if this means that one or more time controls (TC's) cannot be approached. The complete original FIA homologation sheet and other necessary certificates must be presented for the final scrutineering. For national cars the respective ASN documents must be presented.

### 15.2 Accreditation on the spot

Accreditation on the spot on the day of the event is excluded.

### 15.3 Accreditation procedure

We would like to point out that only accreditation applications with a fully completed form and up to the accreditation deadline on **25.10.2020** can be considered.

Please note that a **maximum of 2 people** can be accredited per medium.

Please also note that we cannot confirm receipt of the accreditation application. You will receive a confirmation of the accreditation application or a rejection by 01.11.2020 at the latest.

**In principle, there is no entitlement to accreditation.**

With the accreditation to a motorsport event the organiser allows the journalists the entry to zones that are dangerous and closed for other spectators. The accreditation facilitates journalists work. Only this group of people can get the permission to stay in the closed areas after consulting the marshals on the place.

The accreditation can only be issued to persons who provide a proof of their journalistic work.

For the 23<sup>rd</sup> ADMV-Lausitz-Rally the proof of the journalistic work deemed to be adducted if

- **A paper of the 22<sup>nd</sup> Int. ADMV-Lausitz-Rallye or the proof of a homepage with 15.000 sharing's/day is present**
- The press card of an accepted journalist association or the mandate of a press medium is present.
- Applications of photo-agencies, press-agencies etc. can't be accepted.

Or:

- Actual proof from motor sport reports are present (with explicit identification code or full name)  
Kind and volume of the proofs should be make clear that it is a media offer.

Special cases:

- The rules named above apply to photo-agencies and editorial offices. The accreditation results from the hand out of the press-card, the mandate of the editorial office or of proofs under this premises.
