MY SCHOOL

A school is very genuine place like a temple where we go daily to learn and study to go ahead in our life. We pray to God daily in the school for our better lives and proper study. We say good morning to our class teacher daily and she responses with her smiling face. Our school has a big garden back to the school building. School is the place where we learn everything with the help of our teachers. They help us in working hard for our study and make us tough to go ahead in our life. They tell us about cleanliness, hygiene and proper healthy diet.

Our teacher always motivates us to take part in the sports activity, quiz competitions, oral and written activities, debates, scouting, group discussion and other activities in the school. Our class teacher teaches us to maintain discipline of the school

and keeps the school compound clean and tidy. Our principal tells us motivational messages daily on the stage of prayer. We learn to be honest, truthful, obedient and sincere in our whole life. We learn how to concentrate on the study in the class room. Our school organizes a quiz competition, dance competition and sports competition annually which is compulsory for us to participate.

My school is very good having four storey building. It is like a temple where we go daily to study. First of all in the early morning, we pray to God for our better study and say good morning to our class teacher. Then we start study according to our syllabus. I like to go school daily. My school has very strict discipline which we need to follow on regular basis. I like my school dress very much. It is situated around 2 km away from my sweet home. I go to school by yellow school bus. My school is located at very peaceful place and away from the pollution, noise, dust, noise and smoke of the city.

CASHLESS INDIA

It was on 8 November 2016 that the Government of India took the whole country by storm by announcing that the currency notes of Rs 500 and Rs 1,000 were no longer legal tender. The government move aimed at curtailing the menace of black or counterfeit money which is largely used to fund criminals and terrorists as part of a parallel economy. The acute shortage of money in the wake of this decision led to long queues of people outside ATMs or banks seeking to exchange their notes or withdrawing cash.

Conclusion: But eventually, the move has turned out to be a push towards cashless India that is bound to pave the way for a cashless economy, marked by greater transparency, ease and convenience in monetary transactions.

NATIONAL FESTIVALS

India celebrates three national festivals – Republic Day, Independence Day and Gandhi Jayanti. National festivals in India are celebrated with as much pomp and show as the religious festivals of different states. The citizens of our country are seen immersed in the feeling of patriotism on all three festivals. Various big and small events to celebrate these festivals are organized at different places throughout the country.

Schools, colleges, offices and markets are decked up with flowers, balloons, flags and tri-colour drapes to add to the festive mood. Skits, poetry recitation, debates, fancy dress competitions and various cultural programs are organized as a part of these celebrations. The celebrations at schools, offices and other institutes are mostly held a day before these festivals as the same are closed on the festival day. Various housing societies also organize get together to celebrate these festivals. They usually celebrate these during the morning hours. Cultural activities are organized, patriotic songs are played and brunch or lunch is usually arranged for the people.

These festivals are celebrated to honour our great leaders and get inspired by their deeds. The events organized to celebrate these festivals also offer a good platform to bond with our neighbours, colleagues and other near and dear ones.

COMPUTER

Computer is a modern tool which has made life very easy and simple. It has capability to complete more than one task in small time. It is able to do work of many human beings alone within less time. It is the utility of highest efficiency. The first computer was a mechanical computer which was created by the Charles Babbage. A computer works successfully using its hardware and fully installed application software. Other accessories of the computer are keyboard, mouse, printer, CPU and UPS.

The data which we put into the computer using device is called input data and device as input device and data which we take outside using printer or other device is called as output data and device as output device. The input data gets changed into the information which can be stored and changed anytime. Computer is very safe tool for data storage which is being used in various fields. We can shop, pay our electricity bill, water bill, video chat, messaging, e-mail messages anywhere in the world and lots of online activities using internet.

MY PET ANIMAL

ஞா. செல்வகுமார் ஊ.ஓ. தொ.பள்ளி திருப்புகழி காஞ்சிபுரம் ஒன்றியம்

I have a very cute little spotted cat as a pet. I have named it Isabella. It is very warm and friendly. It has been with us since the last two years and has become an important part of our family. I and my sister are extremely fond of it. We love playing with it all the time.

I have always been very fond of cats. I often kept a bowl of milk in my backyard to attract cats to come to our place. Some cats and small kittens came to our place every day. I also fed them with bread and chapatti. Quite often they even slept under a chair kept in our backyard. I also visited animal shelter to give food to stray cats. Looking at my fondness for these friendly creatures, my mother decided to bring one home.

On my 7th birthday, my mother took me to an animal shelter early morning and surprised me by telling me that I can adopt one of the cats there. My heart went out for a brown coloured spotted kitten sleeping peacefully at a corner and I brought it home. This is how Isabella came to our lives.

MY FAMILY

A person without family is not complete in this world because family is an integral part of all of us. Human beings are considered as the social animals living in group called as family. Family plays many important roles throughout the life. A family can be small family, small nuclear, big nuclear or joint family. There are many relationships in the family such as grandparents, parents, wife, husband, brother, sister, cousin, uncle, aunt, etc.

A positive family provides lots of benefits to its all members where everyone shares equal responsibilities within the family. Every member of the family emotionally attaches to each other in their happiness and sadness. They help each other in their bad times which give the feeling of security. A family provides love, warmth and security to its all members throughout the life which makes it a complete family. A good and healthy family makes a good society and ultimately a good society involves in making a good country.

MY TEACHER

ஞா. செல்வகுமார் ஊ.ஓ. தொ.பள்ளி திருப்புகழி காஞ்சிபுரம் ஒன்றியம்

We humans are social beings.

Therefore society plays an important role in shaping our personality and career. Our society or any society for that matter is made up of relations. As we are born, we become part of our society and are introduced to many relations. For example, father, mother, brother, sister, friends etc.

Maximum of the relations mentioned above have a clear cut function. But there is one relation, according to me which is a combination of all relations and I think that relation is a student teacher relation. I can say this with absolute certainty because of my personal experience. For me my nursery teacher (especially and other teachers also) was a complete world for me. I am sure many of you will agree to this. A teacher is a guide, mentor, friend and many other things which one can think off.
