FIRM KNEE CAP IMPROVED MUSCULAR ENDURANCE

- BREATHABLE & COMFORTABLE FABRIC
- ANATOMICALLY SHAPED DESIGN
- ENHANCED SUPPORT
- FLEXIBLE SUPPORT
- SECURE WELT

The Sorgen Firm Knee cap is a unique wrap-around sleeve, made with high-grade professional materials and improved technology to provide complete muscle support to the knee. It further improves the blood flow in the knee, increasing the speed of recovery and reducing the chance of knee injuries.

Quality Fabric

The materials used to make these Sorgen Firm Knee Caps are very lightweight and comfortable, to ensure all moisture and sweat is absorbed away from the skin. Additionally, the skin can breathe freely and benefit from no cases of skin inflammation and irritation.

Durable

The secure welt that promises a strong grip also ensures longer life to these Sorgen knee caps. The materials used are of high professional quality and offer all day flexibility to the users

Unique Design

The purpose of any knee cap is to provide complete support to your knee, without restricting movement. The unique design of this knee cap is anatomically shaped, to ensure all sizes fit in the right manner and provide full freedom to the knee to move around while being safe.

High Support

Being one of the easy slip-on knee caps available in the market, the Sorgen knee cap is effortless and takes just a few quick minutes to wear and remove. It provides complete protection and support to the knee, keeping the pain and other knee concerns at bay.

Multi-purpose

The technology used for the manufacturing of this knee cap, known as Sorfit, reduces the pressure level on the knee by dividing it off the knee alone. This encourages the sport players and athletes to use this knee cap for all physical activities and enjoy improved performance.

Strong Grip

Most knee caps today focus on design alone, and not the overall performance of the product. This Sorgen Firm Knee Cap has been designed with a secure elastic welt that provides the knee support, while ensuring reduced slippage with the fit to knee feature

MuscleBlaze Whey Gold- India's Most Premium High-Protein Supplement

Your protein should be of as high a standard as your Ziddi workouts. MuscleBlaze Whey Gold is India's most premium protein. It is crafted exclusively for bodybuilding champions, fitness enthusiasts, and athletes who desire nothing but only the best. The first and foremost choice for the ultimate lean muscle gain and faster post-workout recovery.

LABDOOR, USA TESTED & CERTIFIED- FOR ACCURATE CLAIMS

MuscleBlaze is India's first brand to have its multiple health supplements rigorously tested & certified by Labdoor in California, USA for Accuracy. MB Whey Gold is one of them- meaning its label claims (including protein content) have been proven to be accurate by one of the world's most reputed independent testing labs. This Certificate of Analysis is publicly available on Labdoor's official website for consumers all over the world to view.

100% ISOLATE-ONLY PROTEIN

India's leading Whey Protein Isolate, MuscleBlaze Whey Gold, is the ultra-purified form of whey that is premium, authentic, and of the highest possible quality. 100% of the protein in it is derived from Whey Isolate with no compromise on quality. It is also 100% trans-fat-free to avoid unnecessary calories.

LABDOOR, USA TESTED & CERTIFIED- FOR PURITY

MuscleBlaze with its cutting-edge formulations and technology aims to provide you with the best sports nutrition you can have to succeed in your fitness journey. To ensure the purity of MB health supplements, they have been rigorously tested & certified by Labdoor in California, USA for Purity making MuscleBlaze India's first brand to have its multiple supplements rigorously tested & certified by Labdoor. Whey Gold protein powder is completely free from any harmful heavy metals (Lead, Arsenic, etc) or biological contaminants. This Certificate of Analysis is publicly available on Labdoor's official website for global consumers to view.

This protein powder is packed with DigeZyme, a superior multi-enzyme blend including Amylase, Protease, Lipase, and Cellulase that not only enhances the digestibility of protein but also increases the bioavailability of other nutrients. It enhances the fast absorption of Whey Protein Isolate to improve muscle synthesis.

ENRICHED WITH DIGESTIVE ENZYMES

25 g PROTEIN PER SERVING

Get 25 g of whey isolate protein in each scoop of Whey Gold, delivering 80% protein content. It is an arduous task to extract enough protein from our regular diets, hence we need to power our muscles with bodybuilding supplements. This pure WPI gets absorbed quickly in the gut to help you prevent post-workout fatigue and enriches muscles with protein in an anabolic state even before your muscles begin to undergo catabolism for the ultimate muscle gain for a lean and athletic body.

SCRUMPTIOUS FLAVOURS

Connoisseurs of Whey Gold have the option to choose from a multitude of delicious flavour options such as Rich Milk Chocolate, Mocha Cappuccino, Gourmet Vanilla, Dark Choco Passion, Strawberry Shake, Smooth Chocolat, Chocolate Mint & Irish Cream Chocolate. Try these flavours in a chilled protein shake for the best taste.

HOW TO CONSUME

BAMBOO CHARCOAL COMPRESSION SOCKS

Bamboo Base

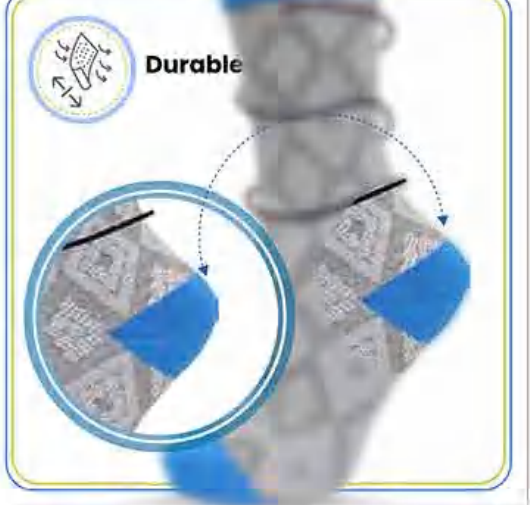

Charcoal Fabric

Durable

Regulated blood flow

Out of all the other materials used, the main material for these compression ankle sleeves is bamboo. Bamboo is one of the most therapeutic plants and is known to effectively soothe the ankle muscle and reduce any inflammation and swelling due to leg fatigue.

Unlike other pairs of regular socks, these bamboo made ankle sleeves are made of special charcoal fabric which is unique and rare. This particular fabric soaks up all the collected sweat and moisture from the feet and locks it away from the skin to avoid skin irritation and allergies.

As the materials used are all organic and naturally extracted, the durability of these ankle sleeves is very high, making them a good investment.

The materials used to manufacture these Sorgen Bamboo ankle sleeves are natural and so each pair is known to be more comfortable on the skin. Moreover, as the moisture is locked away, there is no bacteria interaction with the skin directly, which in turn improves the skin quality.
