47. Read the following paragraph and answer the questions given below.

Elephants are considered keystone and umbrella species as they play a key role within the environment that they live in. As elephants live in herds and require large habitable areas, they tend to change the surrounding atmosphere from forests to grasslands and help to disburse the seeds in an ecosystem that has no natural means of pollinating the area. An elephant requires around 70 to 100 litres of water everyday. Therefore, the elephants in dry zones and dry seasons, dig holes in riverbeds in order to collect water and help sustain water for other species as well. The elephants' habit of clearing the path they roam has acted as natural buffer zones when forest fires take place.

Questions :

- (a) What are the elephants considered as ?
- (b) How many litres of water does an elephant require everyday ?
- (c) Where do they dig holes to collect water ?
- (d) What acts as buffer zones during the forest fires ?

Read the following poem and answer the questions given below.

Books are what I like the best
They're not just toys like all the rest
That break, or get old, or don't want to play
A book gets better everyday.

Sit down and open it - Soon you'll find
A whole new world jump up in your mind,
People and places and all sorts of things -
Dragons and princesses, goblins and kings.

Dinosaurs walking the earth like thunder,
Ancient Egyptians who make you wonder,
Books about planets and space exploration,
The truth about rocks, and the birth of our nation.

And perhaps the most interesting story of all
That tells of the Prince who is going to call,
And even a picture to show how he looks -
Now these are the things that I like about books.

Questions :

- (a) What jumps out of a book to take you to a new world ?
- (b) How do the dinosaurs walk ?
- (c) Why does the poet say that books are better than toys ?
- (d) What sort of books do you like to read ?
